

Directory List & Print

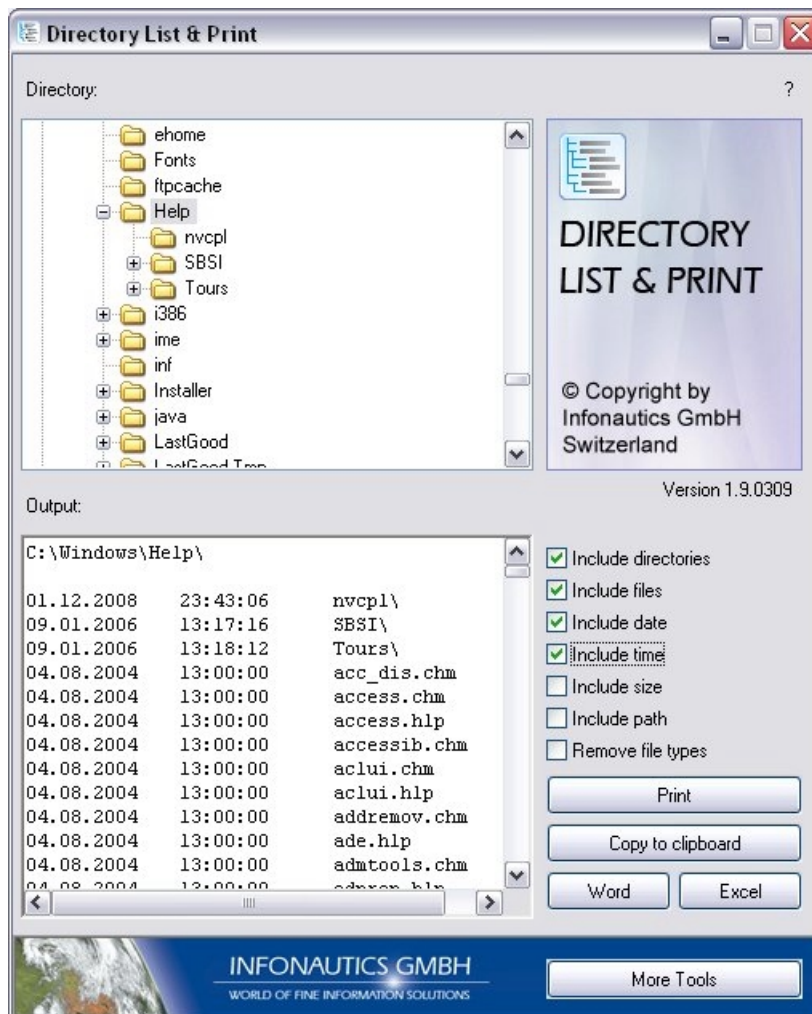

© by Infonautics GmbH, Switzerland

Directory List & Print is a freeware software for Windows™ and enables listing and printing the content of any directory in a simplest way. By copying to the clipboard the lists can be exported into other programs or opened directly in Word™ and Excel™.

Installation

This program does not have to be explicitly installed (portable application). Copy the two files „DirectoryListPrint.exe“ and „DirectoryListPrint.pdf“ into a directory and start the program „DirectoryListPrint.exe“ or the corresponding manual „DirectoryListPrint.pdf“ whenever necessary.

Application

Choose directory of which content should be listed or printed.

Choose properties to be shown in the list.

Print list, copy to clipboard and into other programs or open the list directly in Word or Excel.

Features

- Selection of directories to be listed by a tree structure.
- Listing of sub-directories and/or files.
- Display last modification date.
- Display last modification time.
- Display File size.
- Display file name with or without path directory.
- Display file names with or without file extensions.
- Direct print of corresponding list.
- Export list into other programs by copying to the clipboard. The corresponding data will be organized in columns and separated by tabs so that the list can be pasted directly into Excel™ as a table.
- Open the list directly in Microsoft Word™ and Excel™.
- Sort order of the list: directories before files, within file names in alphabetical order.

System Requirements

Microsoft Windows™ 98/2000/XP/Vista.

Program space on hard disk: less than 1 MB.
