Abstract

This document contains tables showing the non-leaf entries in the top two levels of the DIT, the number of DSAs that data is held in, and the number of master entries held by those DSAs. Sizes given in brackets are potentially out of date as the appropriate DSA was unavailable at the time of making the table (If an organisation has multiple DSAs, then the size figure is a count of the DSAs that were available). A '*' in this column indicates the DSA is not a Quipu DSA.

SUMMARY: The DIT contains 182 DSAs holding at least 315846 entries spread over 312 Organisations.
